

DESCRIPTION

Coros™ OMNI smart cycling helmet is high-tech sports gear designed to help riders get the most enjoyment, freedom, and awareness out of their ride while enhancing safety and performance.

Coros™ OMNI - helmet, smart remote, and mobile app – delivers mobile lifestyle demands of smartphone connectivity, precision two-way audio, and instant accessibility, all packed into a high performance, multipurpose helmet.

It does this ears, hands, and eyes free, so riders can maintain full awareness and keep focused on their ride and the road.

Open ear bone conduction audio - no wires, no earbuds, no safety compromises – links cyclists to their music, friends, bike mates, navigation, and ride data to enrich the ultimate riding experience.

SYSTEM INCLUDES

- Helmet, smart remote and mount, USB charging cable, helmet bag, snap fit visor, quick start guide, warranty registration card.
- Free downloadable iOS/Android app.

FEATURES

- Performance multipurpose aerodynamic helmet with 18 vent airflow cooling design.
- Open ear bone conduction for precision sound and full environmental awareness.
- Precision two-way audio for music, calls and communication, voice navigation and data.
- Smart remote for hands-free audio control for volume, track forward, pause/play, calls.
- App for ride details, routes, voice navigation, GPS data; Data share with STRAVA™ and Map My Ride.
- Day/Night LED safety illumination feature provides maximum visibility throughout day and night.
- G-Sensor emergency alert system sends SMS text and GPS location to emergency contact.
- Comfortable foam strip lining and dynamic fit via ratchet system for extended wear.
- All weather: Rain, water, splash, sweat resistant (IPX5).
